Patriot Red

Polar Blue

Tangerine

First generation doors used polyester paint, and second generation doors used a siliconized polyester. Now there's a more flexible, longer warranty alternative: Super Durable Polyester (SDP) paint. Only at Janus International.

SDP paint offers greater flexibility, corrosion resistance and hardness... all important features when you consider the daily wear and tear your steel doors receive.

Our coil coating color selections are available for 26 gauge materials, such as our sheet doors and filler panels and components.

All colors here are stocked and backed by a 40 year film integrity warranty, guaranteed to hold up against peeling, cracking, blistering, flaking, splitting or delaminating. In addition, these colors are guaranteed not to fade or change color for 25 years. Refer to the complete official warranty in this brochure.

Specialty colors are priced slightly higher than Standard colors due to pigmentation processes and other factors. Extra Green, Safety Yellow and Light Stone (not shown) also considered Specialty colors. Custom colors may be available and require a minimum order, additional charges and/or extended lead times. Contact a sales representative for details. *Models 850 and 3400 available in white only.*

Color chart is for representation only and should not be used for exact color match. Please contact 770.562.2850 or marketing@janusintl.com for actual steel color samples.

While color names listed here may be identical to other companies, Janus does not guarantee an exact color match with them.
